AGREEMENT IN PRINCIPLE (AIP) – STANDARDS OF CONDUCT FOR PROVIDERS ORDER APPROVING RED RIVER COUNTY INVESTMENT POLICY AND PROCEDURES

RED RIVER COUNTY, TEXAS

I. INVESTMENT AUTHORITY AND SCOPE OF POLICY

GENERAL STATEMENT

The purpose of this document is to identify various policies and procedures that enhance opportunities for a prudent and systematic investment process. The initial step toward a sensible investment policy is to organize and formalize investment-related activities. Related activities that comprise good cash management include accurate cash protection, the expeditious collection of revenue, the control of disbursements, cost-effective banking relations, and a short-term borrowing program that coordinates working capital requirements and investment opportunities. In concert with these requirements are the many facets of an appropriate and secure short-term investment program.

FUNDS INCLUDED

This investment policy applies to all financial assets of all funds of the County of Red River, Texas, at present and any funds to be created in the future and any other funds held in custody by the County Auditor, unless expressly prohibited by law or unless it is in contravention of any depository contract between Red River County and any depository bank,

COUNTY'S INVESTMENT OFFICER

In accordance with Sec. 116.112 (a) Local Government Code and or Chapter 2256, Sec. 2256.005 (f) and (g) the County Auditor under the direction of the Red River County Commissioners Court, may invest County funds that are not immediately required to pay obligations of the County. The commissioners court shall designate by resolution one or more officers or employees as investment officer. See Exhibit A

If the investment officer has a personal business relationship with an entity—or is related within the second degree by affinity or consanguinity to an individual—seeking to sell an investment to the County, the investment officer must file a statement disclosing that personal business interest—or relationship—with the Texas Ethics Commission and the commissioner's court in accordance with Government Code 2256.005 (i).

II. INVESTMENT OBJECTIVES

GENERAL STATEMENT

The county's funds will be invested in accordance with federal and state laws, this investment policy, and written administrative procedures. The County will invest according to the investment strategies for each fund as adopted by commissioners court resolution in accordance with Sec. 2256.005 (d).

SAFETY AND MAINTENANCE OF ADEQUATE LIQUIDITY

Red River County is concerned about the return of its principal; therefore, the safety of principle is a primary objective in any investment transaction.

The County's investment portfolio must be structured according to an asset/liability management plan that provides the liquidity necessary to pay obligations as they become due.

DIVERSIFICATION

Red River County will diversify its portfolio to eliminate the risk of loss resulting from overconcentration of assets in a specific maturity, a specific issuer, or a specific class of investments. The county shall always select investments that provide stability of income and reasonable liquidity.

YIELD

The county's objective will be to earn the maximum rate of return allowed on its investments within the policies imposed by its safety and liquidity objectives, investment strategies for each fund, and state and federal laws governing the investment of public funds.

MATURITY

Portfolio maturities will be structured to meet the obligations of the County first and then to achieve the highest return of interest. When the County has funds that will not be needed to meet current-year obligations, maturity restraints will be imposed based upon the investment strategy for each fund. The maximum allowable stated maturity of any individual investment owned by the county is two years.

QUALITY AND CAPABILITY OF INVESTMENT MANAGEMENT

It is the County's policy to provide training required by the Public Funds Act, Sec. 2256.008 and periodic training in investments for the County Investment Officer through courses and seminars offered by professional organizations and associations in order to

ensure the quality, capability and currency of the County Investment Officer in making investment decisions.

INVESTMENT STRATIGIES

In accordance with the Public Funds Investment Act, Section 2256.005 (d), a separate written investment strategy will be developed for each of the funds under Red River County's control. Each investment strategy must describe the investment objectives for the particular fund using the following priorities of importance:

- 1) Understanding of the suitability of the investment to the financial requirements of the entity;
- 2) Preservation and safety of principle;
- 3) Liquidity;
- 4) Marketability of the investment if the need arises to liquidate the investment before maturity;
- 5) Diversification of the investment portfolio;
- 6) Yield; and

III

Red River County will employ a portfolio management strategy for all its funds that places emphasis on the safety of principle cash flow, and liquidity. In accordance with this strategy, a well-constructed, balanced portfolio will be favored to minimize the effects of changing interest rate environments. Consequently, reinvestment of dollars is more evenly averaged over interest rate cycles without undue risk of investing too heavily during any one interest rate environment. The underlying strategy of the investment portfolio will consider such factors as:

- Understanding the suitability of the investment to the financial requirements of the County
- Preservation and safety of capital
- Marketability of the investment if the need arises to liquidate the investment before maturity
- Diversification of the investment portfolio
- Yield
- · Maturity restrictions

These characteristics limit the types of investments that may be acquired by the County. The emphasis is on the safety of principal and liquidity. Any investment's yield is secondary to its safety and liquidity.
